

#### H720 Dual SIM 4G Router Datasheet

The E-Lins H720 series is a compact, ruggedized 4G LTE and Dual SIM cellular networking solution designed for mission-critical connectivity in the most challenging environments. It is qualified for M2M (Machine to Machine), IoT (Internet of Things) and In-Vehicle applications.

# **Application Fields**

With an extensive list of safety and hardening certifications, the H720 is engineered to protect against extreme temperatures, humidity, shocks, vibrations, dust, reverse polarity, and transient voltage, which is widely used in more than twenty industrial fields, such as CCTV security surveillance, vehicle, Telemetry, vending machines, power control, AMR, traffic, oil field, weather forecast, environmental protection, street lamp control, post, bank and many other areas.

## **Key Features**

- ◆ 2G/3G/4G LTE, Dual SIM card slot
- Cellular/WAN RJ45/Wi-Fi client failover and Load Balance
- External antenna connectors for high gain antennas replacement
- MIMO supported
- Cloud-managed (with NMS network management system), TR-069, Web management, SMS, SSH/Telnet/Command, SNMP
- Certified 3G/4G/LTE enterprise/industrial grade internal modems
- Built-in transient and reverse polarity voltage protection, over-current and over-voltage protection;
- ◆ 5-40V DC voltage input range (5-60V DC option), Dual Power Inputs/Power Failover
- Supports Ethernet (T1, DSL, Cable, MetroE), Wi-Fi as WAN, and Metro Wi-Fi
- Ruggedized to ensure always-on connectivity
- Create real-time alerts to monitor uptime
- Offer secure, guest Wi-Fi to passengers
- Advanced security, VPN, and stateful firewall to protect sensitive data
- Robust Metal Case is ruggedized for vibration, shock, provide IP30 protection
- Desktop, Wall-mount and Din-rail mount of installation

Optional Features
 Dual modem Dual SIM online
 Wi-Fi (802.11 a/b/g/n)
 GPS/GNSS
 Serial Port RS232 or RS485
 DI/DO (Digital Input & Output) port \* 4
 POE PD

## **Typical Topology**

#### Failover & Load Balance Tech. for M2M / IoT
